WEEK IN FINANCIAL CIRCLES

While foreign commerce continues in heavy volume, and domestic trade, as evidenced by mercantile reports, is showing limited but steady improvement, the almost unprecedented foreign exchange situation, coupled with the still pending international problems, has created a period of hesitancy in financial circles.

During the past week the pound sterling, the medium by which values are measured in world trade, fell to the lowest quotation in over a century. Compared with the American dollar, it is now at a discount of about 24 per cent. This is a sharp fall for settling exchange, but it is not so great as the discount of the exchange of other European nations. French exchange is discounted about 4 per cent; Italian 15, German 16, and Russian 24. The demoralization, as is readily recognized, is due to the war which has dislocated the foreign trade of the United States with the belligerents.

With the credit balance steadily growing in favor of this country, foreign exchange must continue to fall unless some step is taken to offset the heavy shipments of goods to the warring nations. Europe cannot sell to the American people its usual quota of goods, mainly because its countries have not such to sell, except in lessened quantities. The payment must be made in gold or securities. The latter course is being urged by many of the nation's financiers. The supply of gold in this country is already becoming burdensome, and with money cheap, these bankers say that the investing public of the United States will be ready to absorb a large part of the high grade American securities held abroad.

The principal satisfaction found in general conditions is centered in the domestic outlook. Crops are somewhat backward, but the present indications, with greater acreages under cultivation, are satisfactory. The steel industry, one of the greatest in the country, shows a decided gain and is now estimated to be operating at about 80 per cent of capacity as compared with 70 per cent a month ago. Prices are stiffening, and the building trade exhibits symptoms of recovery.

Credit bodies report that failures are each week showing a marked decrease as compared with a few months ago and are now only slightly in excess of the number reported in the corresponding period last year. Collections are fair and improving, and the demand for skilled labor has increased to the point where there is now a scarcity. Railroad earnings continue to be disappointing, but with the harvest season at hand it is practically an assured fact that the gross business of the larger systems will improve rapidly within the next few months.

Almost since the very outbreak of the war the American press has daily devoted much space to a recital of vast war orders. At first, practically for the first seven months, the shipments were confined primarily to foodstuffs, horses and mules. It is only recently that the munitions which have kept the nation's factories at over-time operation began to move.

Outward manifests filed at the custom house in New York, the port through which the majority of the shipments move, show that during the month of April, the first month in which such shipments were made in volume, the value of goods of the nature was in excess of \$20,000,000. The shipments for May and June are expected to be much heavier.

The shortage of ammunition in the armies of the allies has spurred the American manufacturers to even greater efforts than had been exerted to fill their contracts, and as each order is filled and disposed of another is found waiting to occupy the attention of the manufacturer. Reports were circulated in Wall Street yesterday to the effect that the Russian government had placed with the Baldwin Locomotive Works an order for 60,000 car wheels, the largest order for wheels ever placed in this country. During the past week a few days ago announcement was made of the placing by Russia and France of orders with companies in the United States and Canada for 114 locomotives—sixty-four for Russia and fifty for France. Russia has been buying thousands of cars. During the past week France gave orders in the United States for 3,745 cars. In addition to the order for heavy locomotives Russia is credited with having placed an order with the Baldwin Locomotive Company

BELGIANS STILL NEED AID FROM AMERICA

Urgent Appeal Issued by Mrs. John A. Logan, Chairman of District Committee.

The women and children of Belgium, who are refugees in France, are still in sore distress and in need of American assistance, according to an urgent appeal issued here by Mrs. John A. Logan, chairman of the District Belgian Relief Committee, which is arranging for a shipment of supplies to the war sufferers.

Mrs. Logan has received a letter from Mrs. Caroline R. Hill, of Boston, who is now in France assisting in caring for the refugees. Mrs. Hill was formerly a member of the District committee and as a result of her letter a large number of women assembled yesterday at Mrs. Logan's home and made garments for the refugees. The work was under direction of Mrs. Mary Logan Tucker and Mrs. P. S. Walburn. All garments made and donated by Washingtonians are to be shipped by July 1 to Mrs. Hill.

St. Patrick's Parish Plans Outing for 300 Orphans

The day of days for the 300 orphans dependent upon the parish of St. Patrick's Church will come Thursday, when they will be guests at the annual reunion and outing of the parish at Marshall Hall.

The teachers' association of St. Patrick's Sunday School will have directed the outing, which is planned with good things will be provided for the children, and a program of games is planned for their amusement.

WILD MOTOR KILLS BOY ON FERRY BOAT

Craft Hits Dock and Starts Machine—Man May Die from Injuries.

NEW YORK, June 20.—The ferryboat Nassau was just putting into dock when the bow swerved and crashed violently against the side of the landing stage. The impact set in motion the motor of a big automobile truck on the lower deck and the car pitched forward till its front wheels hung suspended between the boat and the dock.

A fifteen-year-old boy was thrown beneath the rear wheels of the truck and was crushed so badly that he died ten minutes later. A man leaning against the railing of the lower deck was pitched into the water, from which two employees of the city dock department rescued him, probably mortally injured. Two other men were thrown violently against the railing and were injured.

G. W. U. Society Gives Legal Advice Free

Free legal advice to those unable to pay for it will be dispensed throughout the summer by the Legal Aid Society of George Washington University Law School.

It has been determined to keep the offices of the society in New Masonic Temple open Tuesday, Thursday, and Saturday evenings from 7 to 9 o'clock.

Last Week's Winners

Dear Sir—My neighbor and I are constantly using a certain gate which we always keep locked so that none of our live stock might escape. Recently I lost my key, which put me in a very inconvenient situation. I applied the ad of a locksmith, Turner, 1307 H St. N. W., and immediately took my neighbor's key to have it duplicated. I am much pleased with these locksmiths and I heartily recommend them to any one wishing to have a key duplicated.

J. C. RHODES.

Washington, D. C., June 14, 1915.
Classified Advertising Manager, The Washington Times.
Dear Sir—I am writing to you to thank you for the copy of The Times and glancing over it I noticed an advertisement of Finn, the Eye Specialist, 610 G St. N. W.

I called at this store, had a new lens adjusted, which exactly matched the unbroken lens I received from the optician, and the price much lower than I had formerly paid for a job of this kind. I can recommend him to any one desiring a good quality of goods and courteous treatment. Very respectfully,
1125 Euclid St. N. W. J. H. JONES.

Classified Advertising Manager, Washington Times, Washington, D. C.
Dear Sir—I wish to say to the Washington public that if they are in need of good fishing goods they should see Taylor's advertisement before they buy elsewhere. I have tried them and I can recommend them to the public. I believe that all your advertisers are of the same quality. I am yours truly,
J. J. JONES.

June 16, 1915.
Classified Advertising Manager, The Washington Times.
Dear Sir—I wish to congratulate the Washington Times on the reliability of advertisers in this column, of which I am a constant reader. Last week the magneto on my automobile got out of order. I was recommended by an automobile dealer to take it to a certain repair shop, to have it put in order, but to my disgust it was an bad as ever. When looking over the Sunday edition of the Washington Times I noticed an advertisement of a magneto similar to the one I have, so I immediately took it to the Central Armature Works, 1007 7th St. N. W., and believe me it is as good as new. The cost? Well one half of the other fellows'. Very respectfully,
HENRY DORR, Langdon, D. C.
